### **Guardian Automotive extends overnight replacement windscreen delivery service**

**Bertrange, Luxembourg, September 13, 2016** – Guardian Automotive, a leading producer of premium quality automotive replacement glass (ARG), has announced that it is to extend its overnight delivery service for customers in Belgium.

Guardian Automotive already successfully operates an overnight replacement windscreen delivery service in Germany, the Netherlands, Austria and Luxembourg. Beginning September 19, 2016, customers in Belgium will be able to order automotive replacement glass parts for overnight delivery. They will be able to choose from more than 220.000 premium quality parts for cars and trucks, including windscreens, back windows, side windows and accessories. These include windscreens as well as back- and sidelights for cars and trucks. Shipments will take just under 24 hours, starting at 1 piece per customer.

Introducing the new service, Rainer Amann, Guardian Automotive Customer Service Manager Germany, said: "We have been able to serve many customers efficiently from our stock of high quality aftermarket alternatives. Our OEM-quality replacement windscreens can now be delivered overnight in Belgium, thanks to the efficiencies of our modern 11.000 m<sup>2</sup> central warehouse in Karlsruhe, Germany, and a network of international carriers."

Amann added: "As a leading supplier of ARG to the aftermarket industry, we have the know-how, the facilities and the drive to meet - and exceed – customer expectations every day."

Guardian Automotive is exhibiting in hall 6/level 2/stand A50 at Automechanika (13-17 September 2016) in Frankfurt, Germany.

**About Guardian Industries Corp.:**

Guardian Industries Corp. is a privately held, diversified, global company headquartered in Auburn Hills, Michigan. Guardian, and its family of companies, employ 17,000 people and operates facilities throughout North America, Europe, South America, Africa, the Middle East and Asia, with a vision to create value for customers and society through constant innovation using fewer resources.
